Statement of Ownership, Management and Circulation Required by 39 U.S.C. 3685		
A. Type of Publication		
THE CLINICAL JOURNAL OF PAIN		
1. Frequency of Issue	0 2 7 7 3	2. Date of Filing Oct. 1, 1993
QUARTERLY	36. No. of Issues Published	36. Annual Subscription Price
4. Complete Mailing Address of Known Office of Publication: 1185 Avenue of the Americas, New York, NY 10036		
5. Complete Mailing Address of the Headquarters or General Business Office of the Publisher (not printer): 1185 Avenue of the Americas, New York, NY 10036		
6. Full Name and Complete Mailing Address of Publisher, Editor, and Managing Editor (If more than one, list first): Peter B. Wilson, MD, BS, PhD, Dept of Anesthesiology, Mayo Clinic, 200 First St SW, Rochester MN 55905		
Managing Editor (Name and Complete Mailing Address): Ed Barnes, Raven Press, 1185 Avenue of the Americas, New York, NY 10036		
7. Owner: If owned in a corporation, name and address of corporation and name and address of individual who holds 10% or more of the total stock or value of the corporation; if owned by a partnership, name and address of partnership and names and addresses of all partners; if owned by an individual, name and address of individual. If the publication is purchased by a nonprofit organization, name and address of organization and names and addresses of all individuals who are officers or directors of the organization.		
Full Name Raven Press, LTD Wolters Kluwer US		
Wolters Kluwer NV (owns 100% of stock) Hoogoudorpseweg 5, P.O. Box 22980 1100 M. Amsterdam, The Netherlands		
8. Known Bondholders, Mortgagees, and Other Security Holders Owing or Holding 1 Percent or More of Total Amount of Bonds, Mortgages or Other Securities of the Corporation		
Full Name Complete Mailing Address  NONE		
9. For Completion by News Organizations Authorized to Mail on Special Rates Under Section 4072 of the Postal Law The Postmaster General and Headpostmaster of the Post Office to Which This Statement is Addressed: A Postmaster (1) Has Not Received During the Past 12 Months <input type="checkbox"/> Changes During <input type="checkbox"/> Processing 12 Months (2) Has Received <input type="checkbox"/> Changes During <input type="checkbox"/> Processing 12 Months F. Person publishing this issue, publisher's name and address Author with this issue: Peter B. Wilson, MD, BS, PhD, Dept of Anesthesiology, Mayo Clinic, 200 First St SW, Rochester MN 55905		
10. Estimated Number of Copies Average No. Copies Each Issue During Past 12 Months Average No. Copies or Single Issue Published During Past 12 Months		
A. Total No. Copies Each Issue During Past 12 Months		
2963 2962		
B. Paid and Requested Circulation		
1. Sales through dealers and carriers, street vendors and counter sales		
2. Mail Subscription		
3. Total Paid and Requested Circulation (Sum of 1001 and 1002)		
2965 2965		
C. Total Paid and Requested Circulation (Sum of 1001 and 1002)		
2965 2965		
D. Free Distribution by Carrier or Other Means Samples, Complimentary, and Other Free Copies		
E. Total Distribution (Sum of F and G)		
98 98		
F. Copies Not Distributed		
1. Office use, left over, unsold, spoiled after printing		
2. Return from News Agents		
G. TOTAL (Sum of E, F and J) - should equal sum given in A		
2963 2962		
11. I certify that the statements made by me above are correct and complete _____ Peter B. Wilson, MD, BS, PhD, Dept of Anesthesiology, Mayo Clinic, 200 First St SW, Rochester MN 55905 (See Instructions on reverse)		

PS Form 3529, January 1981

*The Clinical Journal of Pain*  
Volume 9, 1993

Subject Index

**AAPM annual scientific meeting**  
selected faculty abstracts, 61  
selected scientific abstracts, 58

**Activity**  
Depression and the experience of chronic back pain: A study of related variables and age differences, 104  
Pain-relevant support as buffer from depression among chronic pain patients low in instrumental activity, 34

**Anxiety**  
Does anxiety affect coping with chronic pain?, 253

**Argon laser**  
Sensory and pain thresholds to orofacial Argon laser stimulation in patients with chronic burning mouth syndrome, 207

**Attachment**  
Childhood psychological trauma and chronic refractory low-back pain, 260

**Attributions**  
Relationship of cognitive distortion to depression in chronic pain: The role of ambiguity and desirability in self-ratings, 202

**Auricular TENS**  
Sine-wave auricular TENS produces frequency-dependent hypesthesia in the trigeminal nerve, 216

**Back pain**  
Altering beliefs about pain and impairment in a functionally oriented treatment program for chronic low back pain, 196  
Childhood psychological trauma and chronic refractory low-back pain, 260  
Depression and the experience of chronic back pain: A study of related variables and age differences, 104  
Multivariate cluster analysis of the MMPI-2 in chronic low-back pain patients, 248

**Behavioral medicine**  
Behavioral management of chronic pain and excess disability: Long-term follow-up of an outpatient program, 41

**Behavior therapy**  
Behavioral management of chronic pain and excess disability: Long-term follow-up of an outpatient program, 41

**Blood pressure**  
Gender differences in pain and cardiovascular responses to forearm ischemia, 16

**Book reviews**  
*American chronic pain association workbook manual*, by P. Cowan, 224  
*Cancer pain*, edited by R. B. Patt, 66  
*Current and emerging issues in cancer pain: Research and practice*, by C. R. Chapman and K. M. Foley, 300  
*Handbook of headache management: A practical guide to diagnosis and treatment of head, neck and facial pain*, by J. R. Saper, S. Silberstein, C. D. Gordon, and R. L. Hamel, 144  
*Headache: Diagnosis and treatment*, edited by C. D. Tolleison and R. S. Kunkel, 299  
*5-Hydroxytryptamine mechanisms in primary headaches*, edited by J. Olesen and P. R. Saxena, 143  
*Hyperalgesia and allodynia*, by W. D. Willis, 63  
*Management of acute pain: A practical guide*, edited by L. B. Ready and W. T. Edwards, 142

**Noninvasive approaches to pain management in the terminally ill**, edited by D. C. Turk and C. S. Feldman, 146

**Occupational musculoskeletal disorders**, by N. M. Hadler, 146

**Pain: A four-letter word you can live with**, by S. V. Vasudevan, 300

**Pain in infants, children, and adolescents**, edited by N. L. Schechter, C. B. Berde, and M. Yaster, 145

**Pain management of AIDS patients**, by T. Janisse, 63

**Patient or person—living with chronic pain**, by P. Cowan, 66

**Physical medicine and rehabilitation: State of the art reviews. Long-term consequences of stroke**, edited by R. W. Teasell, 147

**Principles and practice of pain management**, by C. A. Warfield, 144

**The culture of pain**, by D. B. Morris, 142

**The prevention of postoperative pain: Proceedings of a symposium on the prevention and control of postoperative pain**, edited by H. Merskey and K. Prkachin, 299

**The social context of the chronic pain sufferer**, 65

**Burning mouth syndrome**  
Sensory and pain thresholds to orofacial Argon laser stimulation in patients with chronic burning mouth syndrome, 207

**Cancer pain**  
Pain as an early symptom in cancer, 272

**Cases**  
Combined stellate ganglion and sphenopalatine ganglion block in acute herpes infection, 135  
Head banger's whiplash, 138  
Neuropathic pain in a cancer patient responding to subcutaneously administered lignocaine, 220

**Cervical pain**  
Head banger's whiplash, 138

**Cervicobrachial disorder**  
Manual palpation and pain threshold in female office employees with and without neck-shoulder syndrome, 236

**Chronic orofacial pain**  
Sensory and pain thresholds to orofacial Argon laser stimulation in patients with chronic burning mouth syndrome, 207

**Chronic pain**  
Altering beliefs about pain and impairment in a functionally oriented treatment program for chronic low back pain, 196  
Behavioral management of chronic pain and excess disability: Long-term follow-up of an outpatient program, 41  
Chronic pain and the sociodemographic environment: Results from the pain clinic at Malmö General Hospital in Sweden, 183  
Chronic pain in a geographically defined general population: Studies of differences in age, gender, social class, and pain localization, 174  
Depression and the experience of chronic back pain: A study of related variables and age differences, 104  
Does anxiety affect coping with chronic pain?, 253  
Effects of multidisciplinary pain management treatment on locus of control and pain beliefs in chronic non-terminal pain, 49

**Multivariate cluster analysis of the MMPI-2 in chronic low-back pain patients**, 248

**Pain-relevant support as a buffer from depression among chronic pain patients low in instrumental activity**, 34

**Prediction of return to the workplace after multidisciplinary pain center treatment**, 3

**Relationship of cognitive distortion to depression in chronic pain: The role of ambiguity and desirability in self-ratings**, 202

**Chronic pain patients**

- Functional capacity and residual functional capacity and their utility in measuring work capacity**, 168

**Cluster analysis**

- Multivariate cluster analysis of the MMPI-2 in chronic low-back pain patients**, 248

**Cognitive disorders**

- Relationship of cognitive distortion to depression in chronic pain: The role of ambiguity and desirability in self-ratings**, 202

**Continuous opioid infusion**

- Pediatric PCA: The role of concurrent opioid infusions and nurse-controlled analgesia**, 26

**Coping**

- Does anxiety affect coping with chronic pain?**, 253
- Predictors of response to pain management treatment**, 115
- Strategies for coping with pain and psychological distress associated with temporomandibular joint osteoarthritis and internal derangement**, 94

**Dancing**

- Head banger's whiplash**, 138

**Depression**

- Depression and the experience of chronic back pain: A study of related variables and age differences**, 104
- Pain-relevant support as a buffer from depression among chronic pain patients low in instrumental activity**, 34
- Relationship of cognitive distortion to depression in chronic pain: The role of ambiguity and desirability in self-ratings**, 202

**Diagnostic blocks**

- False-positive rates of cervical zygapophysial joint blocks**, 124

**Dictionary of Occupational Titles**

- Functional capacity and residual functional capacity and their utility in measuring work capacity**, 168

**Disability assessment**

- Intercorrelation and test-retest reliability of the Pain Disability Index (PDI) and the Oswestry Disability Questionnaire (ODQ) and their correlation with pain intensity in low back pain patients**, 189

**Dolorimeter**

- Manual palpation and pain threshold in female office employees with and without neck-shoulder syndrome**, 236
- Repeatability of measurement of tenderness in the neck-shoulder region by a dolorimeter and manual palpation**, 229

**Dorsal root entry zone lesion**

- Neuropathic pain in a cancer patient responding to subcutaneously administered lignocaine**, 220

**Early cancer**

- Pain as an early symptom in cancer**, 272

**Editorials**

- Errors and artifacts**, 77
- Ethics of analgesia**, 157
- Measurement is a pain in the neck**, 227
- Outcome and income**, 1

**Elderly**

- Depression and the experience of chronic back pain: A study of related variables and age differences**, 104

**Epidemiology**

- Chronic pain and the sociodemographic environment: Results from the pain clinic at Malmö General Hospital in Sweden**, 183
- Chronic pain in a geographically defined general population: Studies of differences in age, gender, social class, and pain localization**, 174

**Excess disability**

- Behavioral management of chronic pain and excess disability: Long-term follow-up of an outpatient program**, 41

**Failed back surgery**

- Childhood psychological trauma and chronic refractory low-back pain**, 260

**False-positive rate**

- False-positive rates of cervical zygapophysial joint blocks**, 124

**Familial pain models**

- Individual pain history and familial pain tolerance models: Relationships to post-surgical pain**, 266

**Family environment**

- Predictors of response to pain management treatment**, 115

**Frequency**

- Sine-wave auricular TENS produces frequency-dependent hypesthesia in the trigeminal nerve**, 216

**Functional capacity**

- Functional capacity and residual functional capacity and their utility in measuring work capacity**, 168

**Gender**

- Gender differences in pain and cardiovascular responses to forearm ischemia**, 16

**Head banging**

- Head banger's whiplash**, 138

**Heart rate**

- Gender differences in pain and cardiovascular responses to forearm ischemia**, 16

**Herpes zoster**

- Combined stellate ganglion and sphenopalatine ganglion block in acute herpes infection**, 135

**Human immunodeficiency virus disease**

- Inadequate treatment of pain in ambulatory HIV patients**, 279

**Hypesthesia**

- Sine-wave auricular TENS produces frequency-dependent hypesthesia in the trigeminal nerve**, 216

**Ischemia**

- Gender differences in pain and cardiovascular responses to forearm ischemia**, 16

**Language**

- McGill pain questionnaire translated into Danish: Experimental and clinical findings**, 80

**Learning**

- Individual pain history and familial pain tolerance models: Relationships to post-surgical pain**, 266

**Letters to the editor**

- Controversy corner revisited: Scientific evaluation of "Acupuncture: The position paper of the National Council Against Health Fraud"**, 291
- In response to letter by Drs. Clarke, Hill, and Barnes**, 149
- In response to RSD article by Dr. Ochoa**, 149
- In response to RSD article by Drs. Gibbons and Wilson**, 75
- In response to RSD editorial by Dr. Wilson**, 152
- NACHF reply**, 298
- Physical fitness in the management and prevention of chronic pain**, 68

Topical capsaicin and burning pain, 70  
 Use of standardized notes on laser-printed labels for acute pain management rounds, 73

Local anesthetic  
 False-positive rates of cervical zygapophysial joint blocks, 124

Localization  
 Chronic pain in a geographically defined general population: Studies of differences in age, gender, social class, and pain localization, 174

Locus of control  
 Effects of multidisciplinary pain management treatment on locus of control and pain beliefs in chronic non-terminal pain, 49

Low back pain  
 Childhood psychological trauma and chronic refractory low-back pain, 260  
 Intercorrelation and test-retest reliability of the Pain Disability Index (PDI) and the Oswestry Disability Questionnaire (ODQ) and their correlation with pain intensity in low back pain patients, 189  
 Multivariate cluster analysis of the MMPI-2 in chronic low-back pain patients, 248

McGill pain questionnaire, Danish version  
 McGill pain questionnaire translated into Danish: Experimental and clinical findings, 80

Migraine  
 Serotonin and its role in headache pathogenesis and treatment, 159

MMPI-2  
 Multivariate cluster analysis of the MMPI-2 in chronic low-back pain patients, 248

Morphine  
 Pediatric PCA: The role of concurrent opioid infusions and nurse-controlled analgesia, 26

Multidisciplinary pain center treatment  
 Prediction of return to the workplace after multidisciplinary pain center treatment, 3

Neck muscles  
 Repeatability of measurement of tenderness in the neck-shoulder region by a dolorimeter and manual palpation, 229

Neck pain  
 False-positive rates of cervical zygapophysial joint blocks, 124

Neurogenic pain  
 Chronic pain and the sociodemographic environment: Results from the pain clinic at Malmö General Hospital in Sweden, 183

Neuropathic pain  
 Neuropathic pain in a cancer patient responding to subcutaneously administered lignocaine, 220

Neurosurgery  
 Neurosurgical management of pain: A critical review, 284

Nociception  
 Gender differences in pain and cardiovascular responses to forearm ischemia, 16

Nociceptive pain  
 Chronic pain and the sociodemographic environment: Results from the pain clinic at Malmö General Hospital in Sweden, 183

Nurse-controlled analgesia  
 Pediatric PCA: The role of concurrent opioid infusions and nurse-controlled analgesia, 26

Oswestry disability questionnaire (ODQ)  
 Intercorrelation and test-retest reliability of the Pain Disability Index (PDI) and the Oswestry Disability Questionnaire (ODQ) and their correlation with pain intensity in low back pain patients, 189

Outcome management  
 Neurosurgical management of pain: A critical review, 284

Pain  
 Combined stellate ganglion and sphenopalatine ganglion block in acute herpes infection, 135  
 Gender differences in pain and cardiovascular responses to forearm ischemia, 16  
 Inadequate treatment of pain in ambulatory HIV patients, 279  
 Manual palpation and pain threshold in female office employees with and without neck-shoulder syndrome, 236  
 Neurosurgical management of pain: A critical review, 284  
 Repeatability of measurement of tenderness in the neck-shoulder region by a dolorimeter and manual palpation, 229  
 Strategies for coping with pain and psychological distress associated with temporomandibular joint osteoarthritis and internal derangement, 94

Pain beliefs  
 Effects of multidisciplinary pain management treatment on locus of control and pain beliefs in chronic non-terminal pain, 49

Pain clinic  
 Chronic pain and the sociodemographic environment: Results from the pain clinic at Malmö General Hospital in Sweden, 183

Pain disability index (PDI)  
 Intercorrelation and test-retest reliability of the Pain Disability Index (PDI) and the Oswestry Disability Questionnaire (ODQ) and their correlation with pain intensity in low back pain patients, 189

Pain history  
 Individual pain history and familial pain tolerance models: Relationships to post-surgical pain, 266

Pain locus of control  
 Pain locus of control scores in chronic pain patients and medical clinic patients with and without pain, 242

Pain management  
 Predictors of response to pain management treatment, 115

Pain measurement  
 Sensory and pain thresholds to orofacial Argon laser stimulation in patients with chronic burning mouth syndrome, 207

Pain mechanisms  
 Pain as an early symptom in cancer, 272

Pain rehabilitation  
 Altering beliefs about pain and impairment in a functionally oriented treatment program for chronic low back pain, 196

Pain severity  
 Depression and the experience of chronic back pain: A study of related variables and age differences, 104

Patient-controlled analgesia  
 Pediatric PCA: The role of concurrent opioid infusions and nurse-controlled analgesia, 26

Physical abuse  
 Childhood psychological trauma and chronic refractory low-back pain, 260

Physical examination  
 Repeatability of measurement of tenderness in the neck-shoulder region by a dolorimeter and manual palpation, 229

Physiological correlates to pain  
 Physiological correlates of painful stimulation in preterm infants, 88

**Postoperative analgesic therapy**  
 Pediatric PCA: The role of concurrent opioid infusions and nurse-controlled analgesia, 26

**Postsurgical pain**  
 Individual pain history and familial pain tolerance models: Relationships to post-surgical pain, 266

**Preterm infancy**  
 Physiological correlates of painful stimulation in preterm infants, 88

**Prevalence**  
 Chronic pain in a geographically defined general population: Studies of differences in age, gender, social class, and pain localization, 174

**Prosthetics**  
 Sensory and pain thresholds to orofacial Argon laser stimulation in patients with chronic burning mouth syndrome, 207

**Psychological distress**  
 Strategies for coping with pain and psychological distress associated with temporomandibular joint osteoarthritis and internal derangement, 94

**Rehabilitation**  
 Behavioral management of chronic pain and excess disability: Long-term follow-up of an outpatient program, 41

**Reliability**  
 Intercorrelation and test-retest reliability of the Pain Disability Index (PDI) and the Oswestry Disability Questionnaire (ODQ) and their correlation with pain intensity in low back pain patients, 189

McGill pain questionnaire translated into Danish: Experimental and clinical findings, 80

Repeatability of measurement of tenderness in the neck-shoulder region by a dolorimeter and manual palpation, 229

**Residual functional capacity**  
 Functional capacity and residual functional capacity and their utility in measuring work capacity, 168

**Return to the workplace**  
 Prediction of return to the workplace after multidisciplinary pain center treatment, 3

**Serotonin**  
 Serotonin and its role in headache pathogenesis and treatment, 159

**Sex**  
 Gender differences in pain and cardiovascular responses to forearm ischemia, 16

**Sexual abuse**  
 Childhood psychological trauma and chronic refractory low-back pain, 260

**Social strain**  
 Chronic pain and the sociodemographic environment: Results from the pain clinic at Malmö General Hospital in Sweden, 183

**Socioeconomic status**  
 Chronic pain in a geographically defined general population: Studies of differences in age, gender, social class, and pain localization, 174

**SPG**  
 Combined stellate ganglion and sphenopalatine ganglion block in acute herpes infection, 135

**Spousal support**  
 Pain-relevant support as a buffer from depression among chronic pain patients low in instrumental activity, 34

**Stellate**  
 Combined stellate ganglion and sphenopalatine ganglion block in acute herpes infection, 135

**Subcutaneous lignocaine**  
 Neuropathic pain in a cancer patient responding to subcutaneously administered lignocaine, 220

**Technical notes**  
 Pain clinic records: A comprehensive form and computerized database, 131

**Temporomandibular disorders**  
 Strategies for coping with pain and psychological distress associated with temporomandibular joint osteoarthritis and internal derangement, 94

**Tenderness**  
 Manual palpation and pain threshold in female office employees with and without neck-shoulder syndrome, 236  
 Repeatability of measurement of tenderness in the neck-shoulder region by a dolorimeter and manual palpation, 229

**Tension-type headache**  
 Serotonin and its role in headache pathogenesis and treatment, 159

**Terminal cancer pain**  
 Neuropathic pain in a cancer patient responding to subcutaneously administered lignocaine, 220

**Treatment**  
 Inadequate treatment of pain in ambulatory HIV patients, 279

**Treatment predictors**  
 Predictors of response to pain management treatment, 115

**Treatment setting**  
 Pain locus of control scores in chronic pain patients and medical clinic patients with and without pain, 242

**Trigeminal nerve**  
 Sine-wave auricular TENS produces frequency-dependent hypesthesia in the trigeminal nerve, 216

**Wave form**  
 Sine-wave auricular TENS produces frequency-dependent hypesthesia in the trigeminal nerve, 216

**Work capacity**  
 Functional capacity and residual functional capacity and their utility in measuring work capacity, 168
